

WC 13th November 2017

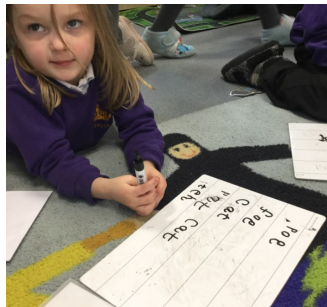

This week we have been learning about missing numbers and firemen.

This week we had an urgent message from Fireman Sam. He needed help as the wind in Pontypandy had been so strong that it had knocked off the house numbers. Sam was concerned that if someone needed help in one of the houses, he wouldn't know where to go. We solved the problem and helped him find the missing numbers. Some of us had a go at ordering bigger numbers.

We also helped Sam save a cat from the tree by putting our numbers in order to make a ladder.

In our Wow write, we needed to write down the animals that Sam needed to save. We worked hard with our sounding out and used the sound mats to help us.

## Our Big Question...

What do we want to know about fire people?

We thought of some very interesting questions about firemen and women. We asked where the water from the hose comes from and how fire engines are made. We role played firemen and firewomen in our outside area, saving people from fires and pets from trees.

On Friday we contributed towards Children in Need. Along with Aspen Class, we took part in HIIT sessions (High Intensity Interval Training). We tried really hard with our exercises and remembered to take deep breaths during our breaks. We spent time learning about why we take part in Children in Need and who we are helping. We had a little think about what we are grateful for and shared it with our friends.
